Absolute Freedom of Fiume Demanded.

RAPALLO, Italy, Nov. 11. (By Associated Press.)—In what may be considered an ultimatum sent to the Jugo-Slav delegation here regarding the pending negotiations between Italy and Jugo-Slavia over the Adriatic question, Count Sforza, the Italian foreign minister, as head of the Italian delegation, laid down Italy's definite minimum claims. These, the document stated, were:

First, the Italian frontier, including the Julian Alps, Nevoso mountain and the railway from Fiume to St. Peter's.

Second, territorial contiguity between Fiume and Italy.

Third, the Fiume to be a state entirely independent, without any control by the league of nations.

Fourth, annexation of the islands of Lussin-Riccolo, and Cherso to Italy.

Fifth, annexation of Zara to Italy.

Sixth, annexation of the Jugo-Slav islands to Italy for strategic reasons.

Seventh, guarantees for the protection of the Italian minorities in Dalmatia, remaining under Serbian rule.

Eighth, demilitarization of some of the Dalmatian positions which will be allotted to Serbia.

It is stated the Italian minimum terms were presented on the request of the Jugo-Slav delegation. The Jugo-Slavs were said to consider them excessive, but reserved their reply until the claims had been further examined.

## DELEGATES GATHERING AT "PALACE OF NATIONS" FOR GREAT WORLD CONFERENCE

GENEVA, Nov. 11.—(By the Associated Press.)—Geneva is beginning to feel its honors as the headquarters of the world and its residents are being violently elbowed to make room for the league of nations, with all its appurtenances.

The secretariat of the league, 300 strong, is occupying the largest hotel for its offices. The delegations to the assembly of the league of nations on Nov. 15, their secretaries and advisers are expected to number a thousand more, taxing to the utmost the accommodations of this small city.

Judging by the promptness and numerical strength of its representation Japan is the country that takes its role in the league most seriously. Many of its delegates already are here, taking up three floors in two of the leading hotels, and quarters have been reserved for 100 in all.

Dr. Gaston Da Cunha, Brazilian ambassador to France, and one of the most active members in the league of nations, was the first delegate to arrive.

Delegations are expected from at least 41 of the 55 members of the league. The new kingdom of the Hedjaz has not yet announced the appointment of a delegate, but has asked press facilities for a Hedjaz correspondent.

The delegations already announced make up a brilliant group of statesmen, orators and diplomats, headed by two former presidents of republics. There are two former premiers, two presidents of senates, one president of a house of representatives, nine cabinet ministers—mostly ministers of foreign affairs—seven former cabinet ministers, four ambassadors and 20 ministers plenipotentiaries.

The distinguished orators include Rene Viviani, Dr. Da Cunha and Dr. Rafael Martinez y Ortiz, Cuban minister to France.

Final preparations for the assembly will be completed in the next few days. The league council which will meet at the old National hotel which, since it was bought by the league, has been rechristened "The Palace of Nations," changes in the agenda of the conference are considered unlikely as it has already undergone all the changes of which it is susceptible in advance of the meeting of the assembly, which itself has the right to judge what the agenda shall be.

The first important subject coming up, according to the program as it now stands, is an amendment to the league covenant.

league covenant. "This discussion may, if the delegates so wish, be preceded by the question of the voting strength of the delegations. It is recalled that Leon Bourgeois, the French representative at the time of adoption of the covenant, expressed the hope that the assembly would accord the French colonies the same right of representation as accorded the British dominions. The French delegation thus far has given no notice that it will bring up the question."
